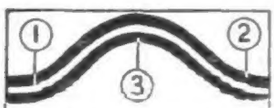
CELLACTITE

Roofs and Vertical Cover

HEAT-INSULATOR · RESILIENT
LIGHT · STEEL-CORED · STRONG
GUARANTEED PERMANENT

CELLACTITE steel-cored corrugated sheets have proved ideal for hangars and aerodrome buildings of all sorts. They provide permanent protection, whether installed as roofing or vertical cover, and the lightness and non-breakability of CELLACTITE make it ideal for the large sliding doors usual on such buildings.

Contracts include extensions for the Bristol Aeroplane Co., Ltd., Handley-Page, Ltd., numerous air sheds and buildings for the Air Ministry, and the Dekheila, Mersa Matruh, Almaza and El Arish hangars for the Civil Aviation Authorities in Egypt.



(1) Bitumen enveloped corrugated steel sheet on to which are bonded CELLACTITE Asbestos Asphalte felts, conferring (2) impermeability from without, and (3) special acid-proof and non-drip properties.

May we send you the CELLACTITE Reference Catalogues giving full particulars both of the sheeting and of the highly efficient CELLACTITE "Medway" Roof Ventilator in uniform material?
